can't be beat

### A FEW THINGS WE ASK YOU TO REMEMBER

If you come into the theatre after the picture has finished, keep your seats when the play is over as the picture is always run again. You pay your admission price for the play, and the picture is our treat. Stay and see it.

When you purchase tickets in advance, please be sure and examine them and see that they are for the night you want them. Mistakes have resulted from tickets being purchased for the wrong night. And Always Count Your Change and Look at Your Tickets before you leave the Box Office window.

Don't let it be said that your baby was the one who spoiled the show. If baby cries we ask you for the sake of the players, as well as the audience, to please take it down stairs quick. Don't wait for the usher to request you as this is embarrassing to both he and you.

WE THANK YOU.

## Dusenberry Radioelectric Station

“Member Michigan State  
Radio Association”

## Newsy Notes

It has been our misfortune to have in the audience lately, some few individuals who are inclined to make remarks aloud regarding different things during the action of the play. This practice is insulting to the members of the company as well as annoying to our patrons and every effort is being made to have this disturbance stopped. We are here to entertain you, we appreciate your patronage, and we will go the limit to see that your evening is not spoiled by some one or two persons who think it smart to come into a theatre and take the responsibility of entertaining, on their own shoulders. Should there be anyone sitting near you who is disturbing the performance in any manner, you will confer a favor upon the management and the players by immediately reporting same to box office and the offending parties will be immediately ejected from the theatre.

The play which the Princess Players will present next week requires very little advertising as to its merits. The fame of "CAPPY RICKS" is nation wide. The book was one of our best sellers and the author is one of the best known in America. The Peter B. Kyne stories of "Cappy Ricks" ran for a long time in both the Saturday Evening Post and the Cosmopolitan, was then published in book form and later made into a play. And a better play has never been written. "CAPPY RICKS" has been played all over the country, by road productions and all successful Stock Companies and has proven a hit everywhere. The story is the real, human kind that everyone loves and the comedy can't be beaten. It will very likely be pronounced by many people the best of the season.

## The Question Box

Q.—We think Miss Edna Cable does her parts very good.  
A.—Miss Cable thanks you.

Q.—How long will the Princess Players be with us?  
A.—All season.

Q.—Do you think Miss Garrett would give us her autographed photo if we asked her?  
A.—In a short while we will present to our patrons a photo of every member of the company. These photos will be presented one at a time on some matinee day. Date to be announced later.

22 West Huron St.

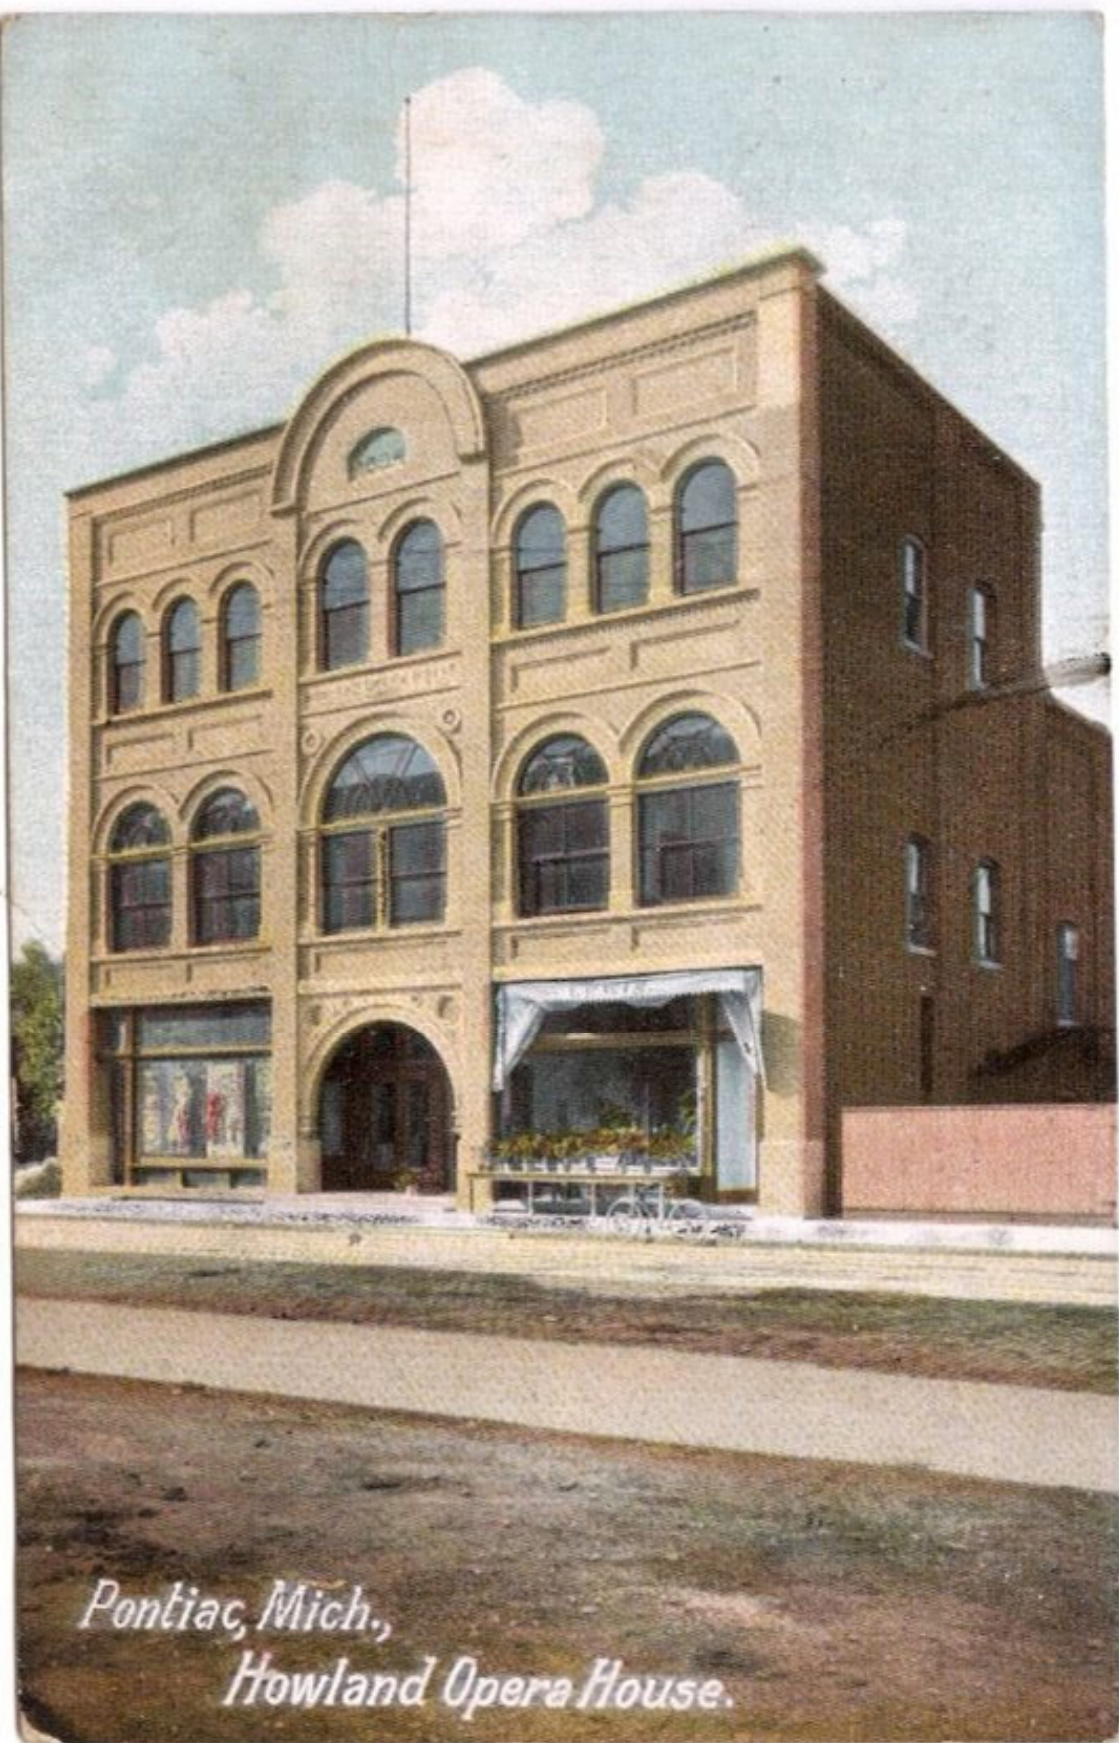

This Howland Theatre (Pontiac, MI) program was found with a set of four A. H. Andrews and Co. “opera chairs” during a 2016 building renovation in Pontiac.

It is believed that these chairs may have been removed from the Howland Opera House, built in 1905, later renamed the Howland Theatre.

An ad mentioning “The Forbidden City” (1918), a film starring Norma Talmadge, is in the program for The Strand Theatre also of Pontiac.
